JUDGE LYNCH.

The Law Relieved of Any Further Trouble With a Quartette of Negro Murderers in North Carolina—The Four Hang to Oak Tree.

RALPHIGH, N. C., September 30.—Monday night four negroes, Jerry Finch, his wife, Lee Tyson and John Pattishall, were lynched one mile from Pittsboro, Chatham County. They were taken from jail and their bodies were found this morning suspended to a tree, near the public road. This is the terrible sequel to the triple murder of the Finch family on the night of last Fourth of July, and the murder of the Gunter family near the same spot some eighteen months ago. There were two of Finch's family, Edward, aged seventy-nine, and his sister, aged eighty-one. They were found on the morning of Sunday, July 5th, lying on the floor with their throats cut. Near them lay their servant, a negro boy aged sixteen. All had been knocked on the head with an axe. Suspicion early rested on the negro Jerry Finch, and he was arrested. It was a great task from the first to prevent the lynching of these parties. Lee Tyson was afterward arrested, and some time later John Pattishall was taken in on the charge of being concerned in the Gunter murder, and possibly in the Finch murder. He was said to have been seen near the spot where the Gunters were killed, and next morning was in another county and told the first news known there of the crime. Detectives from Richmond worked up the case. The verdict of the jury was long delayed, they feeling that if it was adverse to the prisoners they would be promptly lynched. The verdict, when rendered, was against the prisoners. A majority of the people appear to be satisfied that these people were guilty of two murders, for the two were connected.

The Chicago Police Make a Big Scoop of the Devotee of the Green Cloth—Ninety Arrests and a Large Lot of Paraphernalia Captured and Destroyed.

CHICAGO, ILL., September 29.—Promptly at nine o'clock last evening squads of policemen in citizens' clothes went to eight of the downtown gambling houses. Four houses were found open and running in full blast; the others were closed. Gamblers were placed at the doors and windows of the houses, while the balance of the policemen bustled themselves in collecting the chips and gambling tools preparatory to taking them away. Before ten minutes expired six patrol wagons were dispatched about the corner of Clark and Madison streets. Squads of uniformed policemen jumped down from them. Headed by a Lieutenant and a Sergeant each squad broke away by itself and marched into a gambling-house. Clark street from Monroe to Randolph, swarmed with a curious multitude. A few minutes elapsed and then the policemen appeared with the men who were caught in the houses. They were loaded into the patrol wagons and carted down to the Harrison Street Station. Twenty-eight tables were captured, with ninety inmates, and taken to the station. There the tables were smashed up in the alley back of the station and burned. A couple of bushels of chips, several dozen iron-boxes and many counters were also destroyed. The raid was conducted under the direction of Captain Buckley. It was well planned, and so well carried out that it was a surprise to all the houses which had opened.

CHOLERA IN NOVA SCOTIA.

Concernation Caused by the Appearance of Cholera at Hantsport, Nova Scotia.

BANGOR, ME., September 29.—There is much anxiety in Eastern Maine regarding the reports of the existence of Asiatic cholera at Hantsport, Nova Scotia, as there is a great deal of travel between the provinces and the States. It is reported that the deaths at Hantsport average six a day out of a population of only a thousand. The epidemic is said to have been caused in this way: Last fall a shoal of black fish came up the river, which runs almost through the village. The tide receding, many of these fish were left on the mud flats. They weighed several tons. A local firm secured the fish, and taking a large quantity of oil from them, buried the carcasses on the shore. This summer the place where the fish were buried became a regular stench-pit. When the wind was blowing from the river the smell in the village was almost unbearable. This was allowed to continue for some time, but finally a covering of lime and earth was put over the carcasses and the stench ceased no further annoyance. The neglect of an ill sanitary rule is at the bottom of the trouble. Bangor is in frequent communication with the ports of Maine and other Mediterranean ports by means of Italian vessels in the fruit box trade, and the Widow's Island quarantine station may come into service.

Money Bags Taken By Ants.

WASHINGTON, D. C., September 30.—The work of unloading the treasure ships Swataner and Yaulie was continued yesterday. It was found that many of the bags in which the money was carried were infested with ants and when so badly that they burst open when the attempt was made to lift them, strewn the coins over the floor of the room in which they are being unpacked. Other bags were damaged by the dampness of the vessel's hold and burst in the same way as those eaten by the ants. In some cases the coins were carried loosely, the bags having given way, and it is said some of them worked their way through the crevices of the boxes. It can not be told until the money is recounted whether or not any is missing. In each bag were carried a thousand dollars, with four bags in each box. Some two or three hundred of the bags opened yesterday were found damaged as indicated above.

Preparing for the Trip Home.

NEW YORK, September 30.—The English attaché General Lay at anchor off Tompkinsville yesterday morning. The English pilot, Wm. Gilchrist, who arrived Monday, came aboard about noon. Under his directions the crew rolled up the racing sails of the Genesta, and late yesterday afternoon the topmast and mainmast were unshipped and unstayed and the jury mast rigged, preparatory for the yacht's start for England on Saturday. Captain Carter says he expects to make the home voyage in seventeen days.
